Nickel Market

DISCLAIMER AND FORWARD LOOKING STATEMENTS

This presentation is being furnished to you solely for your information and for your use and may not be copied, reproduced or redistributed to any other person in any manner. You agree to keep the contents of this presentation and these materials confidential. The information contained in this presentation does not constitute or form any part of any offer or invitation to purchase any securities and neither the issue of the information nor anything contained herein shall form the basis of, or be relied upon in connection with, any contract or commitment on the part of any person to proceed with any transaction.

The distribution of this presentation in jurisdictions outside Australia may be restricted by law, and persons into whose possession this presentation comes should inform themselves about, and observe, any such restrictions. This is not for distribution or dissemination in the U.S.

The information contained in this presentation has been prepared by Western Areas Ltd. No representation or warranty, express or implied, is or will be made in or in relation to, and no responsibility or liability is or will be accepted by Western Areas Ltd, employees or representatives as to the accuracy or completeness of this information or any other written or oral information made available to any interested party or its advisers and any liability therefore is hereby expressly disclaimed. No party has any obligation to notify opinion changes or if it becomes aware of any inaccuracy in or omission from this presentation. All opinions and projections expressed in this presentation are given as of this date and are subject to change without notice.

This document contains forward-looking statements including nickel production targets and cost estimates. These statements are based on assumptions and contingencies that are subject to change without notice, and certain risks and uncertainties that could cause the performance or achievements of Western Areas Ltd to differ materially from the information set forth herein. Often, but not always, forward looking statements can generally be identified by the use of forward looking words such as “may”, “will”, “expect”, “intend”, “plan”, “estimate”, “anticipate”, “continue”, and “guidance”, or other similar words and may include, without limitation, statements regarding plans, strategies and objectives of management, anticipated production and expected costs. Western Areas Ltd undertakes no obligation to revise these forward-looking statements to reflect subsequent events or circumstances. Individuals should not place undue reliance on forward-looking statements and are advised to make their own independent analysis and determination with respect to the forecasted periods, which reflect Western Areas Ltd’s view only as of the date hereof.

The information within this PowerPoint presentation was compiled by Western Areas management, but the information as it relates to exploration results, mineral resources or ore reserves was prepared by Mr Graeme Gribbin, Mr Andre Wulfse or Mr Marco Orunesu-Preiata respectively. Mr Gribbin, Mr Wulfse and Mr Orunesu-Preiata are full time employees of Western Areas Ltd. Mr Gribbin is a member of Australian Institute of Geoscientists (AIG). Mr Wulfse and Mr Orunesu-Preiata are members of Australian Institute of Mining and Metallurgy (AusIMM) and have sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which they are undertaking to qualify as Competent Persons as defined in the 2012 Edition of the ‘Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves’(2012 JORC Code). Mr Gribbin, Mr Wulfse and Mr Orunesu-Preiata consent to the inclusion in this presentation of the matters based on the information in the form and context in which it appears.

CORPORATE

CORPORATE OVERVIEW

High quality assets

- Highest grade, low cash cost nickel producer
- Free cashflow positive

No debt, clean balance sheet, low costs

- Low unit cash cost producer
- A\$132.6m cash at bank
- Kidman Resources equity stake A\$35.0m³

Organic growth options and innovation

- Exciting exploration intersections
- Odysseus DFS and Mill Enhancement project

Positioned for nickel recovery

- A\$1/lb lift in nickel price = circa A\$30m EBITDA
- New and improved offtake contracts implemented

ASX code	WSA
Share price	3.19
Shares outstanding (m)	272.7
Market Cap (A\$m) ¹	869.9
Cash (A\$m) ²	132.6

Cosmos Nickel Complex

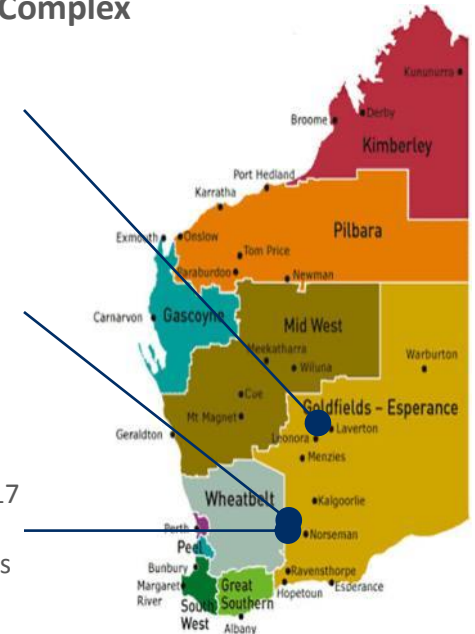

592kt Ni resources
PFS complete
DFS underway

Flying Fox

10kt Ni mined FY17
33.7kt Ni reserves
94.1kt Ni resources

Spotted Quoll

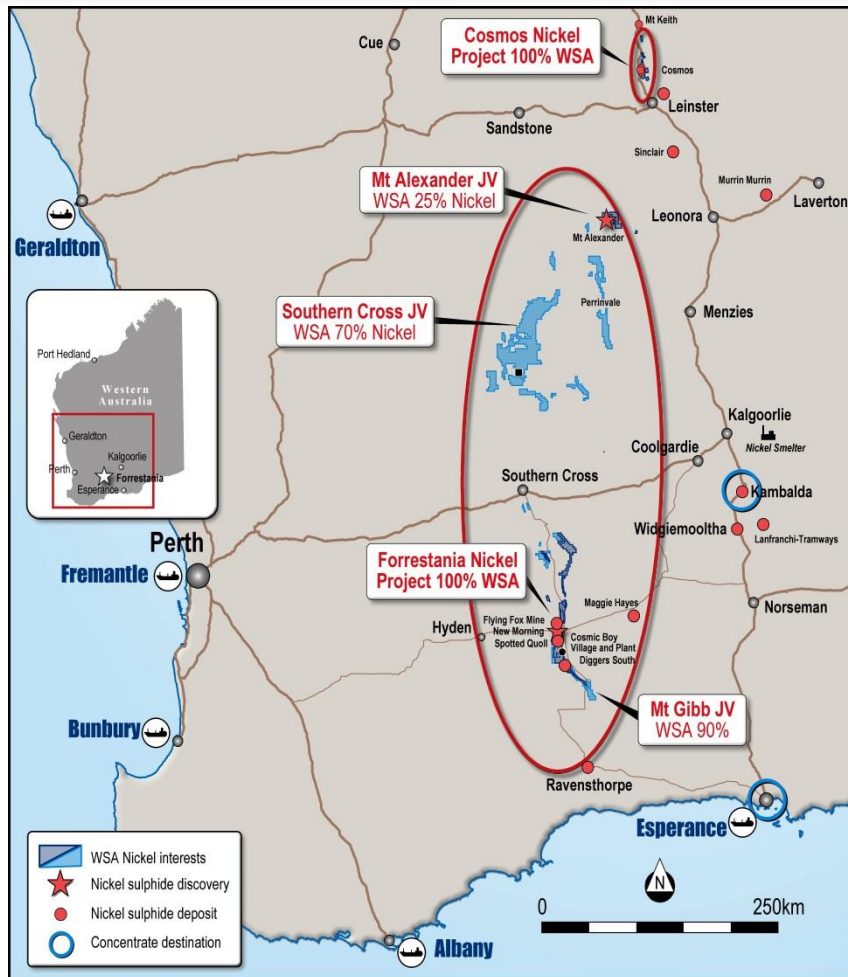

15.5kt Ni mined FY17
79.7kt Ni reserves
111.7kt Ni resources

A leading mid-tier base metal producer

1. Based on share price on 8 March 2018 2. Cash as at 31 December 2017 3. As at 7 March 2018

LOCATION – EASILY ACCESSIBLE SITES

Lounge Lizard 10m wide face of 7% Massive Nickel Sulphide

Spotted Quoll face at average 10.6% Nickel Sulphide

Premier and stable mining district with high quality mines growth options

WESTERN AREAS ARE SAFE AREAS

Days LTI free

Exploration	3,470	Nov-08
Spotted Quoll	2,514	Aug-11
Cosmic Boy Concentrator	1,712	Oct-13
Flying Fox	353	Mar-17

12 month LTIFR moving average

Safe operations make efficient operations

CONSISTENT DELIVERY

- Over seven years delivering or exceeding guidance
- Remains debt free
- Consistent low cost producer
- Mill performs well above nameplate capacity
- Last few years – value over volume logic

A management team that consistently delivers on guidance

KEEPING ACTIVE IN A VOLATILE MARKET

Innovation, adding value, finding new opportunities, doing things differently...

New and improved
offtake deals

MREP – a new,
higher grade and
value product
stream

Advancing Cosmos
– a third potential
mine

Greater operational
efficiency

Lithium
investments

Value from non-
core assets

Delivering on our promises...

Targets	Completed
Offtake contracts	✓
Cost control	✓
Prudent capital management	✓
Innovation	✓
Building our portfolio	✓
New products and markets	✓

KEY TAKEAWAYS – HALF YEAR FY18

- **No lost time injuries in 1HFY18 - LTIFR at 0.97**
- **Liquid assets of A\$186.8m (cash at bank, receivables and Kidman equity) and ZERO debt**
- **10,865 and 10,614 nickel tonnes in concentrate produced and sold respectively**
- **Realised nickel price of A\$6.81/lb, up 3% from 2HFY17 (February average currently around A\$7.65/lb)**
- **EBITDA of A\$36.4m:**
 - Increase of 59% over 2HFY17*, despite sales volume reduced by 588 nickel tonnes
 - Increase of 26% over 1HFY17*, despite sales volume reduced by 823 nickel tonnes
- **Reported Net Profit After Tax (NPAT) of A\$3.5m:**
 - Substantial improvement over prior halves when excluding Bluejay and Kidman adjustments
- **FY18 Guidance Metrics remain unchanged (see slide 12)**
- **Organic growth project pipeline full and delivering value:**
 - MREP to be commissioned by end of March quarter – entering the EV market space
 - Odysseus a larger project with mine life extensions – DFS in July
 - New Morning gaining momentum on the back of MREP

* Bluejay and Kidman EBITDA impact 1HFY17: A\$3.6m and 2HFY17: A\$29.5m

FY18 GUIDANCE MAINTAINED

Category	FY18 Guidance	1st Half FY18
Mine Production (Nickel tonnes in Ore)	23,500 to 25,000	11,825
Nickel tonnes in Concentrate Production	21,500 to 22,500	10,865
Unit Cash Cost of Production (Nickel in Concentrate)	A\$2.40/lb to A\$2.65/lb	A\$2.49/lb
Sustaining and Mine Development Capital Expenditure*	A\$30.0m to A\$36.0m	A\$17.2m
Mill Recovery Enhancement Project (MREP)	A\$14.0m	A\$11.5m
Feasibility Studies	A\$3.0m	A\$1.2m
Exploration	A\$12.0m	A\$3.8m

* Includes Spotted Quoll ventilation shaft completion and mechanical fit-out (A\$5.8m)

Comments

- All FY18 guidance metrics on track
- MREP requires only a further A\$2.5m spend in January 2018
- Exploration set to ramp up in the second half with programs at FNO, Western Gawler and Cosmos

OPERATIONS

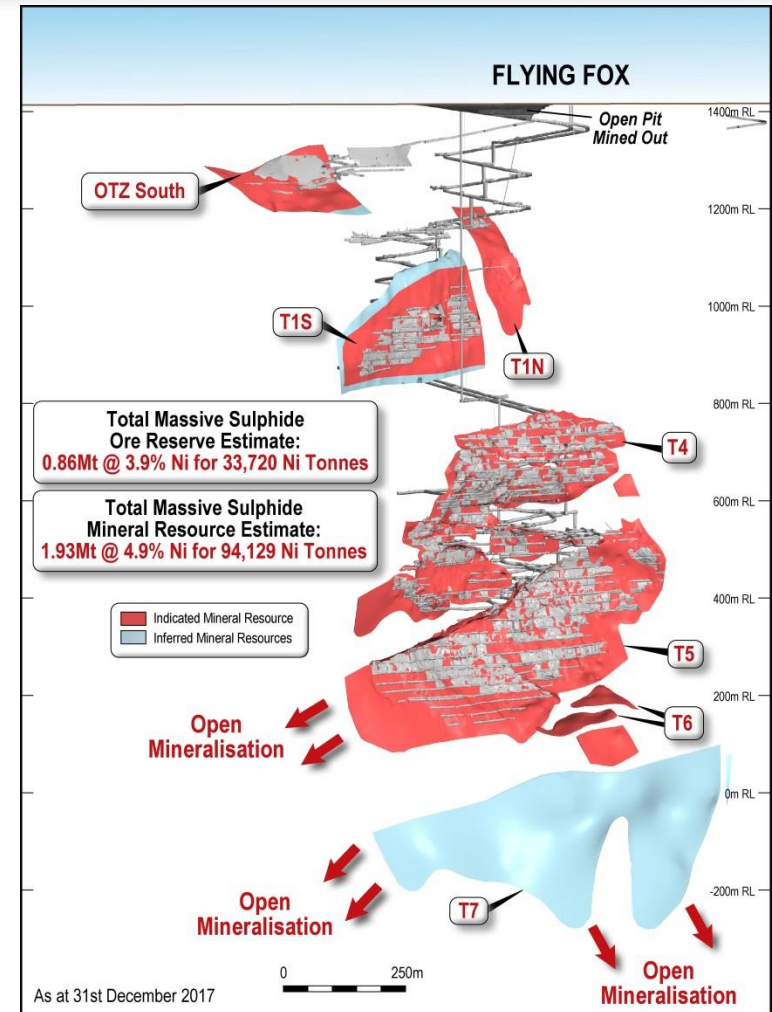

FLYING FOX MINE

Reserve Contained nickel	0.86Mt @ 3.9% 33,720 Ni tonnes
Resource Contained nickel	1.93Mt @ 4.9% 94,129 Ni tonnes
Mine life (on reserves)	4 years

Key points

- FY17 production – 10,486 Ni tonnes
- Added OTZ South Massive Zone – 182,898t @ 4.1% Ni for 7,417 nickel tonnes
- Recent resource extension drilling into T6 domain has been encouraging, **including 8.0m @ 10.7% Ni**
- Has been operating for over 12 years
- Drilling program below the current reserve planned for 2HFY18

WSA foundation asset within Forresteria

SPOTTED QUOLL MINE

Reserve Contained nickel	1.98Mt @ 4.0% 79,360 Ni tonnes
Resource Contained nickel	1.98Mt @ 5.6% 111,751 Ni tonnes
Mine life	7 years

Key points

- Has never recorded an LTI
- FY17 record annual production – 15,510 Ni tonnes
- Remains open at depth and to the North
- Production has outperformed reserve tonnes and grade consistently
- Top down mining with paste fill

WSA Explored, Discovered and Developed

COSMIC BOY NICKEL CONCENTRATOR

Concentrator Summary

- Mill processed an annual record of 617,808k tonnes of ore in FY17, for 23,005 nickel tonnes
- 12% above name plate capacity of 550,000 tpa
- Concentrate grades of between 15.0% to 16.0% Ni
 - Premium blending product (Fe/Mg ratio >15:1)
 - Desirable to smelters and roasters

Export Infrastructure and Logistics

- Export concentrate transported to Esperance Port in half height containers and shipped through to China
- BHP Nickel West concentrate delivered to Kambalda by road

WSA produces a high quality and in demand nickel concentrate

NEW AND IMPROVED OFF-TAKE CONTRACTS

Opening new markets

Superior commercial terms

Creating more value from the same nickel product

Our Partners:

- **BHP:** 55%
- **Tsingshan:** 45%
- ✓ China's largest stainless steel producer
- ✓ Consumes ~25% of China's nickel demand
- ✓ Revenue RMB85 billion in 2015, 20k employees

Roasting

- Creates a high grade nickel oxide that can be blended with laterite ore
- By-product of sulphuric acid for 'pickling' stainless steel
- Most concentrates do not suit roasting
- Proven process - opening up opportunities with Tsingshan

MILL RECOVERY ENHANCEMENT PROJECT (MREP)

Produces additional new higher-grade product (45%-50% Ni)

Generating value from waste tailings

New customers - EV battery market

- Located next to Cosmic Boy Nickel Concentrator
- Construction complete
- First production of high grade nickel sulphide in Q1 2018
- Utilises BioHeap® process to leach waste tailings
- Unit cost A\$2.44/lb, 3 year payback

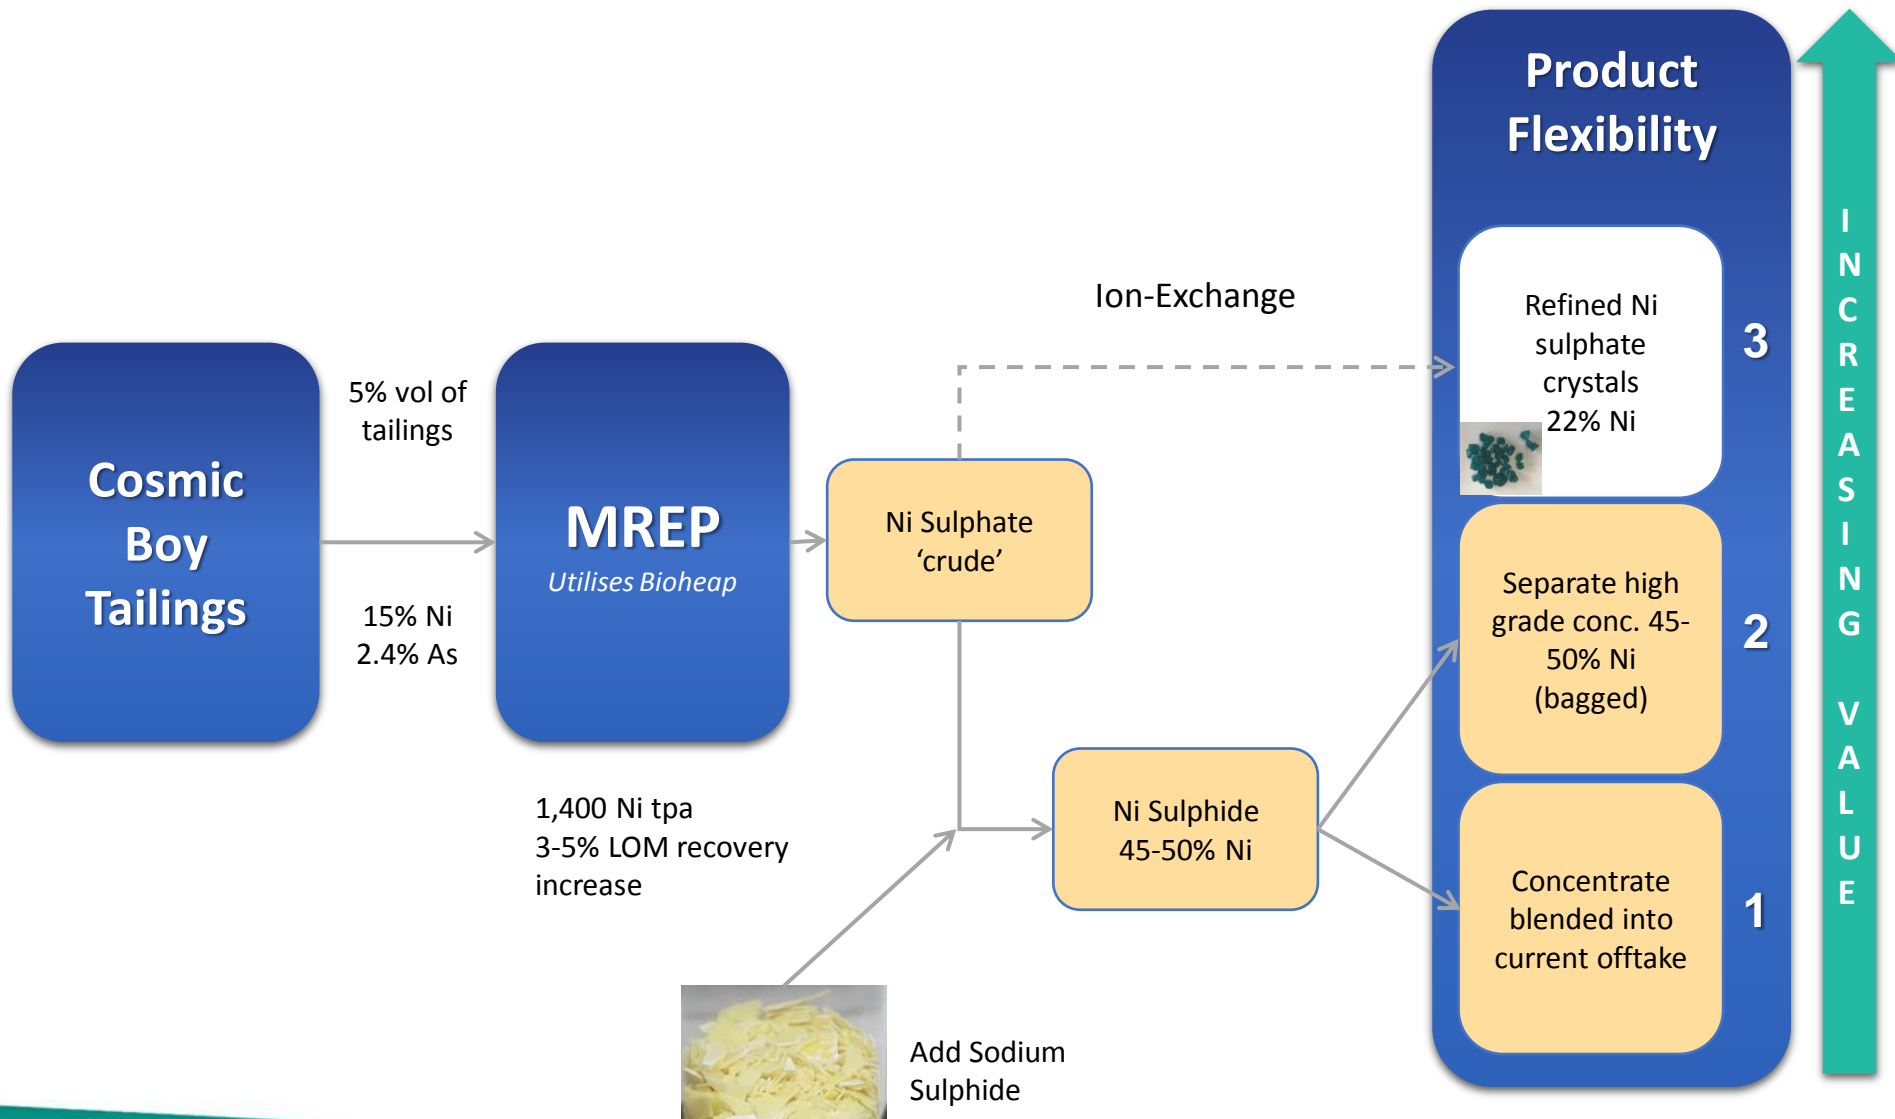

MREP SITE WORKS – 17/01/18

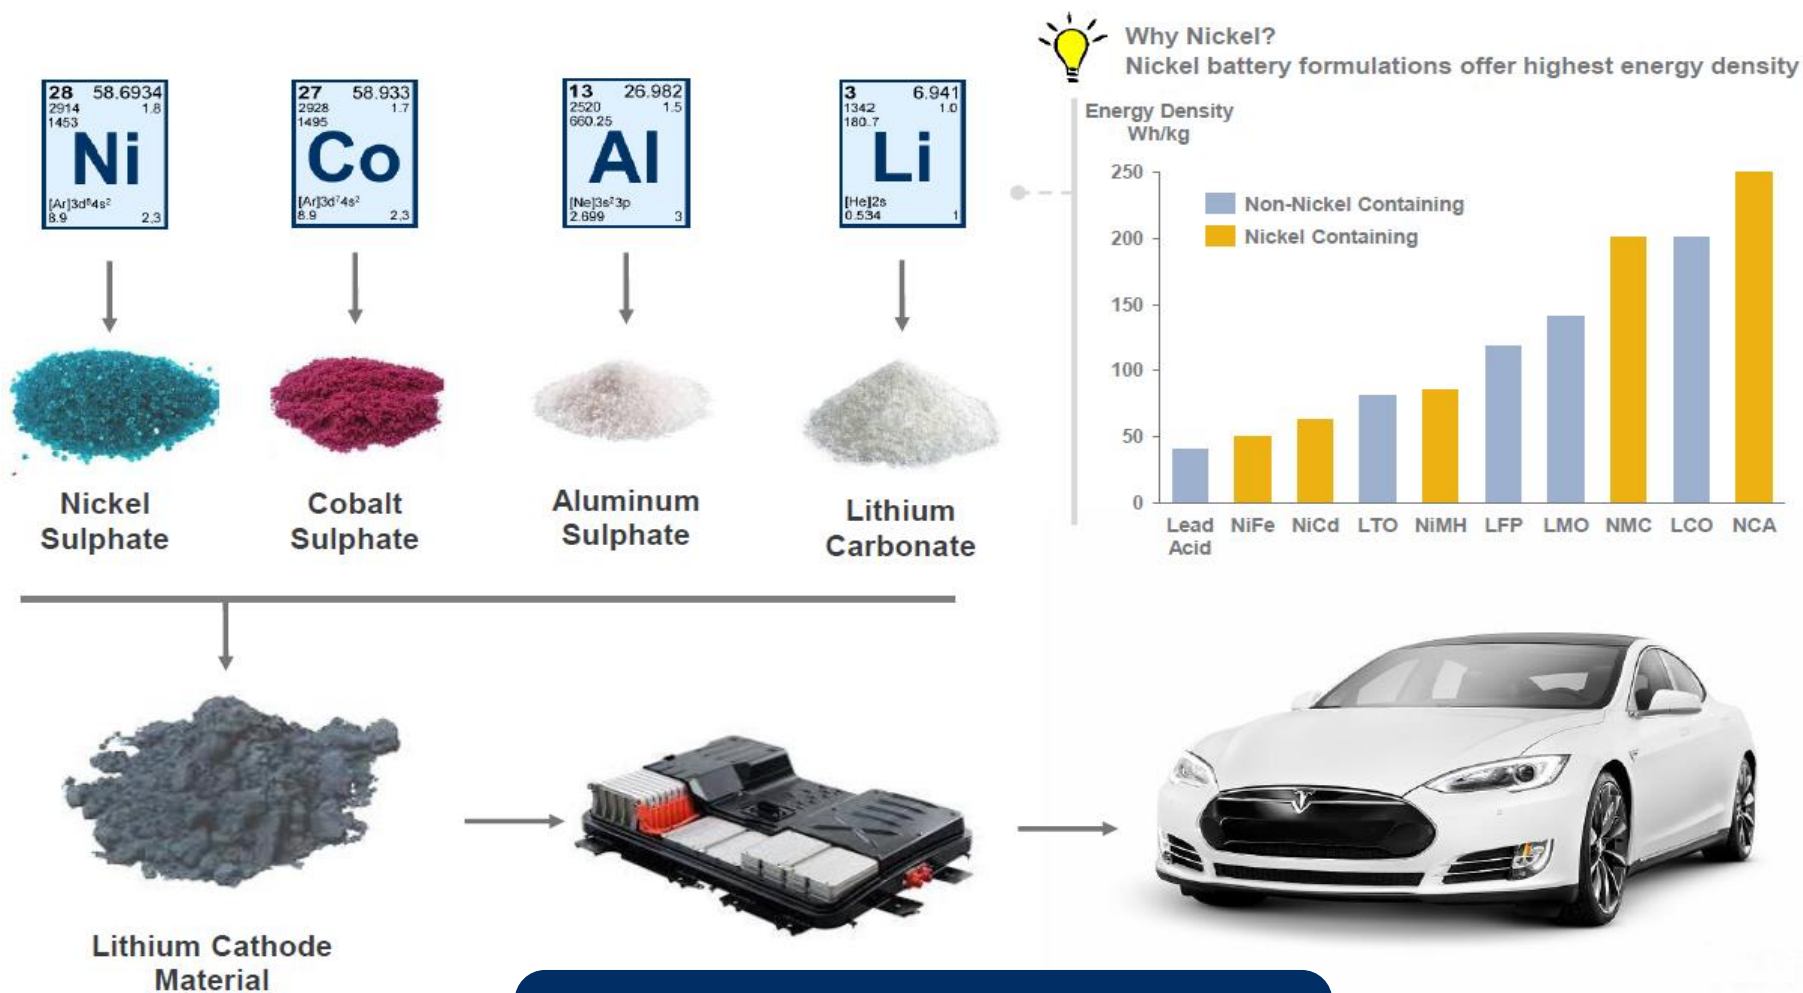

- Construction completed on time and on budget
- Commissioning commenced and aiming for completion by end of March quarter
- A\$2.5m remaining at 31 December 2017
- No incidents

MREP FLOWSHEET

NICKEL IS A KEY INGREDIENT IN LITHIUM-ION BATTERIES (~50KG NI PER CAR)

"Our cells should be called Nickel-Graphite, because primarily the cathode is nickel and the anode side is graphite with silicon oxide... [there's] a little bit of lithium in there, but it's like the salt on the salad," Tesla CEO Elon Musk

GROWTH & EXPLORATION OUTLOOK

ORGANIC GROWTH PROFILE

Large holding in 2 significantly endowed nickel provinces

Forrestania Operations – Western Australia

- New Morning project – Near mine leveraging existing infrastructure with leaching studies underway
- History of reserve/resource extension
- Mill Recovery Enhancement Project – lift metallurgical recoveries by 3-5%
- Evaluating Lithium potential at the Forrestania tenements

Cosmos Nickel Complex / Odysseus – Western Australia

- Existing resources and infrastructure (previous Glencore/ Xstrata/Jubilee Mines operation)
- Odysseus DFS underway with >10 year mine life expected

Western Gawler – South Australia

- First mover advantage
- Intrusive style and geologically similar to Nova

Historic reserves & resources

WSA has a track-record of discovery and development

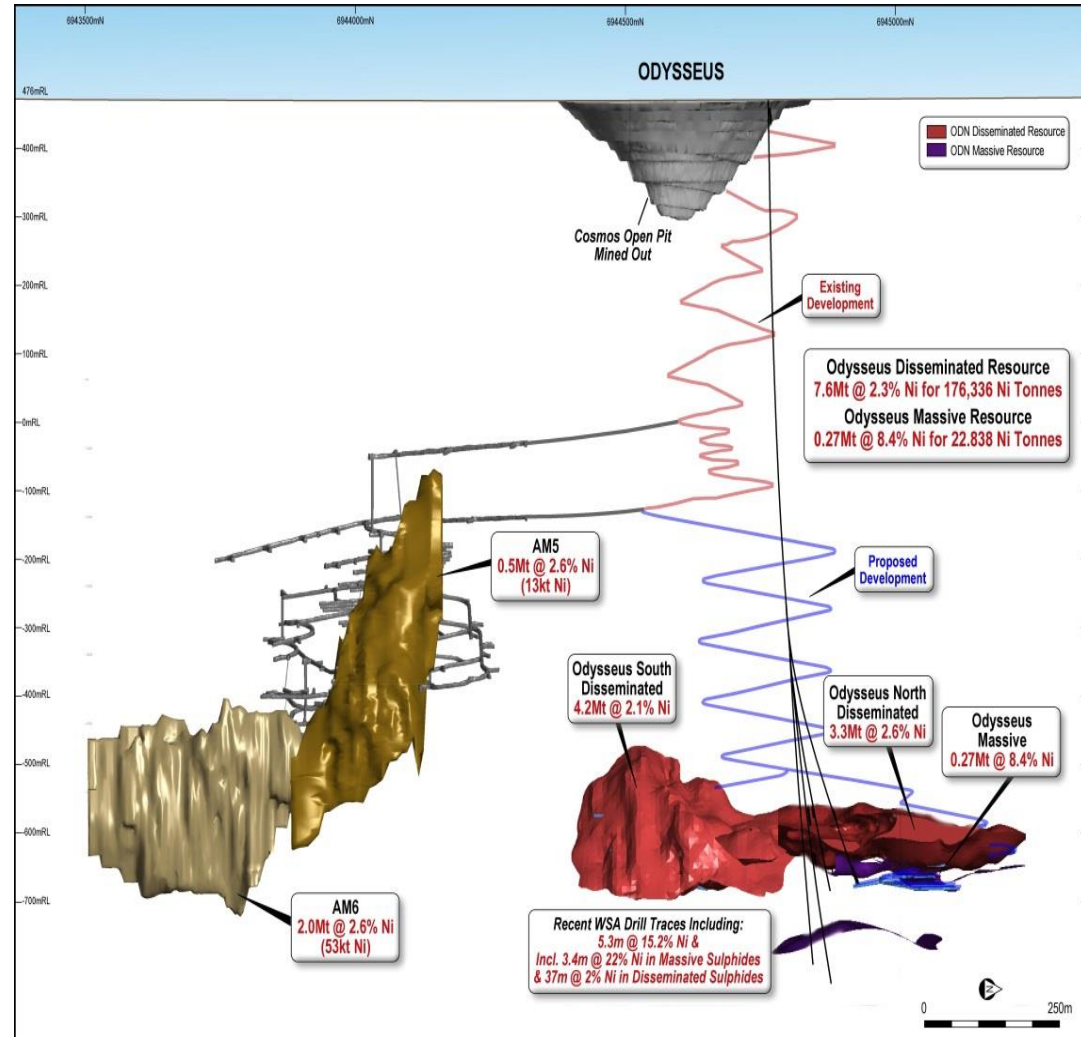

EXPLORATION UPSIDE – KEY TENEMENT HOLDINGS

COSMOS - ODYSSEUS – NOW A LARGER PROJECT

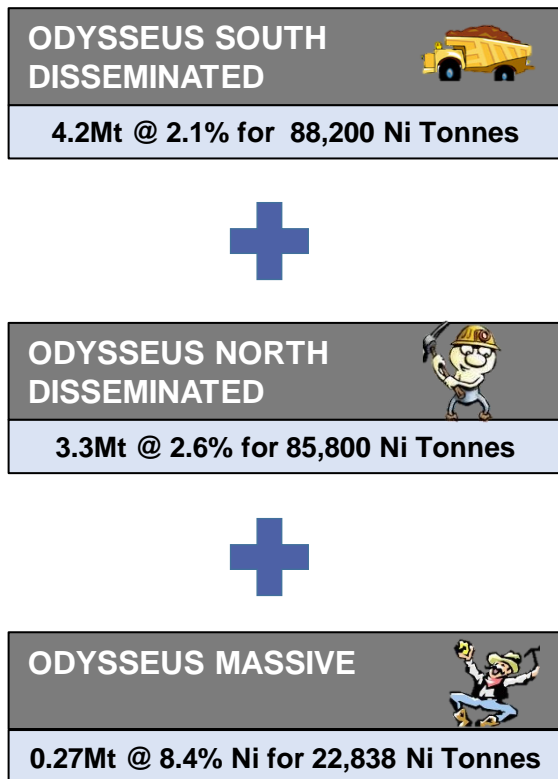

A potential new (third) nickel operation on the horizon...

- Odysseus PFS shows financially and economically robust project and nickel production metrics
- Very low sustaining capital expenditure after initial pre-production capex
- Very low all-in unit sustaining costs of **A\$3.69/lb (US\$2.70/lb)**
- Odysseus DFS to be completed by release of June 2018 quarterly report
- Expected mine life now beyond 10 years
- Very high grade drill results at Odysseus North, extension to project resource
- **Significant exploration upside:**
 - ✓ AM5 and AM6 orebodies (53kt of contained nickel)
 - ✓ Recent massive sulphide drilling success beneath Odysseus
 - ✓ Regional drilling success at Neptune
 - ✓ Opportunities for a roasting concentrate

ODYSSEUS PRE-FEASIBILITY STUDY RESULTS

Key Metrics

PRODUCTION

 12,000 Ni Tonnes pa

MINE LIFE

 7.5 Years

PRE-TAX NPV

 A\$292M

PRE-TAX IRR

 28%

PAYBACK

 3.5 Years

NET CASHFLOW PRE TAX

 A\$580M

CAPITAL COST

 Pre-prod A\$190 – A\$210M
LOM A\$258 – A\$278M

C1 CASH COSTS

 A\$3.21/lb (US\$2.41/lb)

ALL IN SUSTAINING COSTS

 A\$3.69/lb (US\$2.77/lb)

Assumptions:

- Nickel Price of US\$7.50/lb;
- USD Exchange rate

For full pre-feasibility detail, see ASX announcement, 30 March 2017

NEW MORNING / DAYBREAK

- Massive sulphide resource of 418kt @ 3.4% for 14,249 nickel tonnes
- Low grade resource (at 0.5% Ni COG) of 5.1m tonnes @ 1.3% for 67,090 nickel tonnes
- Located 2.5km from Flying Fox and 2.8km from Spotted Quoll
- Open Pit Scoping Study commenced
- BioHeap® testwork ongoing to evaluate heap leach criteria

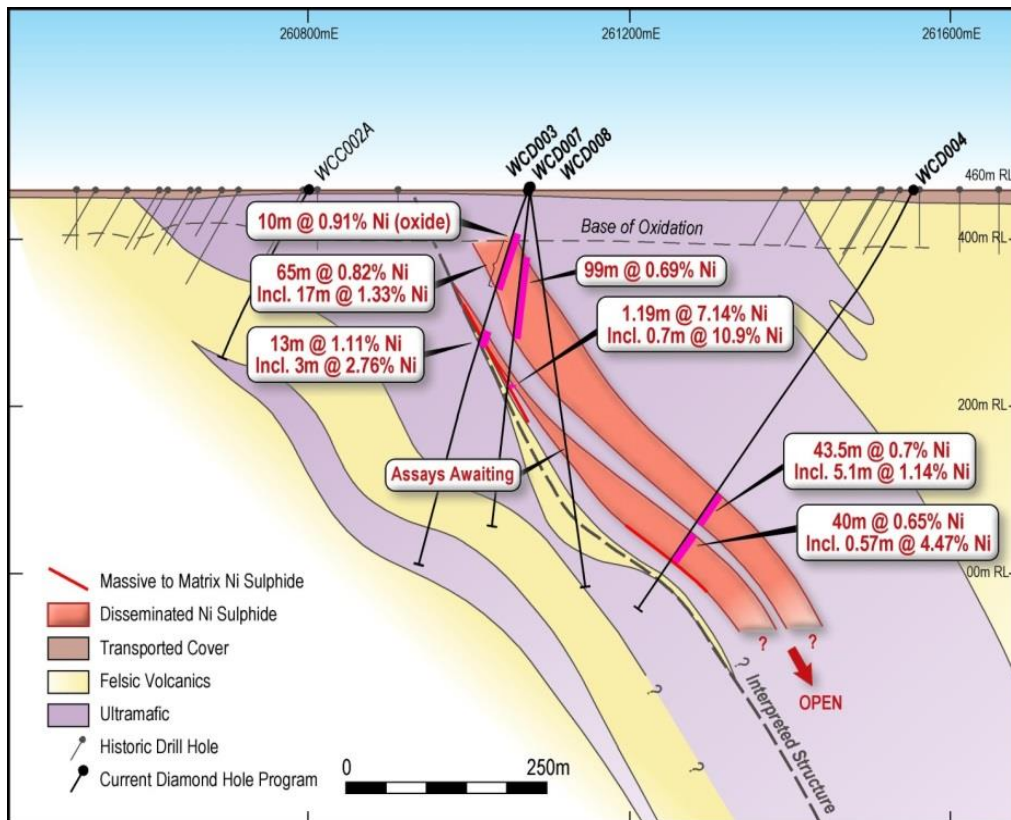

CONCEPTUAL NEW MORNING NICKEL FLOWSHEET

COSMOS EXPLORATION - NEPTUNE

Drilling Results

- First drill program completed at Neptune and high grade nickel sulphides intersected
- 65.0m @ 0.82% Ni, including 17.0m @ 1.33% Ni
- 1.2m @ 7.1% Ni, including 0.7m @ 10.9% Ni**

WESTERN GAWLER PROJECT

Large-Scale Greenfields Exploration Asset

- 4,450km² tenement holding
- Majority 100% owned
 - With Strandline farm in agreement – WSA earning up to 90%
- Underexplored margin of the Gawler Craton - camp scale opportunities preserved

Right Address

- Multi-commodity - Nickel- Copper- Gold
- Multitude of untested targets
- Analogous to Fraser Range

Right Rocks

- Fertile mafic-ultramafic intrusive rocks throughout area
- Magmatic nickel sulphides confirmed

Right Signatures

- Anomalous values returned from drilling

EXPLORATION SUMMARY – WESTERN GAWLER

Broad scale prospectivity for Ni/Cu and Gold

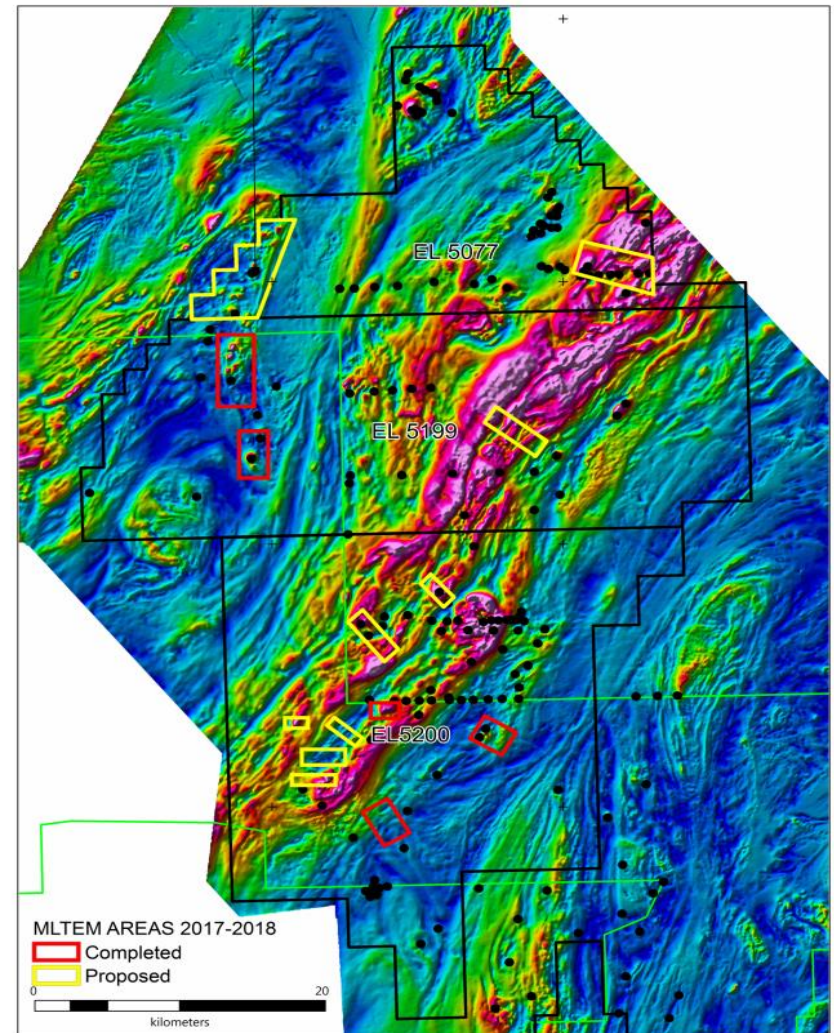

Successful first phase of exploration

- Surface EM in progress over priority areas –(early encouragement – anomalies identified)
- Heritage Survey completed Nov 2017 – priority drilling targets cleared
- Multiple mafic/ultramafic intrusions identified; priority targets

Planned exploration (next six months)

- January 2018- completion of EM surveys
- Follow-up AC/RC drilling planned in January quarter FY18
- Prospect scale focus- Moving Loop EM, confirm geochemistry and intrusive extents

Community – Proactive engagement to support activities

NICKEL MARKET

NI GROWTH FROM THE EV BATTERY SECTOR

- Nickel is a key ingredient in lithium-ion batteries (~50kg per car)
- EV battery manufacture could drive +10-40% of incremental nickel demand by 2025 – *UBS, July 2017*
- ~15m EV production in 2025 would mean an additional ~300- 900ktpa of incremental nickel demand – *UBS, July 2017*

“It’s not just the demand for nickel – it’s the form as well”

Source: UBS Global Commodities – July 2017

“The company (VW) which aims to make up to three million EVs a year by 2025 ”

Source: Mitsui Bussan Commodities - September 2017

EV's create a new source of Nickel Demand (ktpa)

NICKEL DEFICITS ON THE HORIZON !

Source: CRU, INSG, Macquarie Research, October 2017

THE YEAR AHEAD

- Spotted Quoll
- Flying Fox
- Cosmic Boy Concentrator

Production

- Complete Odysseus DFS
- Commission MREP
- New Morning Study

Development

- Cosmos Nickel Complex
- Western Gawler JV
- Forrestania

Exploration

- Markets for new product streams
- Battery market potential
- Potential for nickel to move to supply deficit
